Hi Lis,

In response to your questions:

1.) DNR only said "fire control" in their stat language request. However, it should probably fire control equipment and supplies based on their discussion and background information.

2.) You are correct. It is to centralize revenue deposits from sales of those items.

Let me know if you have any additional questions.

Thanks,

Peter

Hi Peter,

On the changes to the equipment pool operation appropriation in s. 20.370(8)(mt), you indicated that fire control, forestry equipment and forestry supplies should be added. Two questions:

1. Should it be "fire control *equipment*"?
2. I'm assuming these are each equipment pools that are being added, not items that the money appropriated can be used to purchase. Is that right?

Under current law, all money DNR receives from DNR and other state agencies from certain vehicle and equipment pools is appropriated from the conservation fund to DNR to be used for operation, maintenance, replacement, and purchase of vehicles, equipment, radio services, and information technology. This bill allows DNR to use this money for supplies as well.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

To Peter Kirby:

It is my understanding that DNR<sup>✓</sup> intends to add the purchase of fire control and forestry equipment and supplies to the purposes for which the revenues from the various equipment pools listed in s. 20.370 (8) (mt)<sup>✓</sup> may be used. This section already provides for equipment pool revenues to be used for the purchase of "equipment," which would include fire control and forestry equipment. Therefore, I added only "supplies," to ensure that DNR may also purchase fire control and forestry supplies with this money.

I recommend that you have DNR<sup>✓</sup> review this draft to make sure it achieves the desired intent of the legislation.

Hi Elisabeth,

I have the following requests from DNR:

Equipment Pool Operations (0393/P1)

- The Lemay Warehouse also sells to local units of government, other states, and private non-profits (which some small volunteer fire departments are). As currently written, they don't see the revenue from those sales being able to be managed under the pool.

Thanks,

Peter

This draft appropriates to DNR money received through equipment or vehicle pools from local government units, other states, and nonprofits. ✓ Alternatively, we could simply say "All moneys received by the department," and leave it at that. The language you describe ("language that would allow for agencies to purchase equipment, possibly rent it, and sometimes obtain services related to the equipment.") seems consistent with what DNR want to do.

DNR feels that it seems consistent with the last version of the language we had on the table--it seemed to accomplish the objective. Maybe I am missing some nuance or fine point?

I guess to put it simply-- as long as the appropriation can do everything it did in the past-- fleet-- radios etc. and let us sell forestry fire stuff to others-- I think DNR's good.

Ok -- it seems like we need to replace the notion of a "pool" with language that would allow for agencies to purchase equipment, possibly rent it, and sometimes obtain services related to the equipment. Does this sound accurate?

I think it is only sold-- but it wouldn't hurt to include lease (if that's possible)

DNR was thinking of the Tomahawk Forestry Shop when they included services. They do some fire equipment fabrication or repairs, which could be a service to locals.

Sure. Just to clarify, is the equipment, etc., only sold, or is it also rented out? Could we say "from the sale [and lease] of cars, trucks ... to the department, other agencies, or nonprofits."

Also, what is meant by "services"?

Hi Lis,

Just received this from DNR regarding the equipment pool stat language. Didn't realize they were going to send over another change otherwise I would have held off sending the earlier email. Is this workable?

Thanks,

Peter

Peter--

Another thought on this one-- Not really sure what the repeated use of "pool" meant in the last draft-- never really defined anywhere (which is ok if we change the language). Might be better off leaving references in for different levels of government and nonprofits and getting rid of the "pool" addition. Then clarify the language by including supplies in the items that can be purchased by buyers and also include supplies in the things that can be bought from the appropriation. I think it reads smoother.

This should be broad enough to take care of the fire equipment thing.

Suggested new changes (with pool out) highlighted below:

20.370 (8) (mt) *Equipment pool operations*. All moneys received by the department from the department ~~or from~~, other state agencies, local units of government, other states, or nonprofit organizations ~~from~~ for car, truck, airplane, heavy equipment, information technology, supplies or radio ~~pools~~ purchases or services,

to be used for operation, maintenance, replacement, and purchase of vehicles, equipment, supplies, radio services, and information technology.

Thanks

Joe
